# A Journey in Colour

ROGER OATES DESIGN + A RUM FELLOW

A journey in colour, taken together.

A fantasy of travel through colour escapism with a focus on structure and composition, the culmination of a two year adventure uniting two designers. This collaboration explores global representations of colour as a form of expression, reimagining traditional weaving and embroidery techniques to find a shared colour identity, steeped in heritage.

With colour and composition at its core, this bold collection sees the introduction of a woven diamond pattern. Four designs introduce ten new vibrant colours to our heritage palette to create a contemporary collection full of energy and excitement.
